

Personalised learning profiles

Studying shouldn't feel like guesswork.

Studygram helps secondary students understand how they learn, focus, stay motivated and study – while giving schools practical insight they can use.

WHAT IT IS

A quick student diagnostic

Students complete an engaging A/B-style questionnaire and receive a personalised profile with practical next steps.

WHY IT MATTERS

Clearer support, less guesswork

Teachers get a clearer picture of student and cohort learning patterns, so support can be more targeted.

What Studygram helps students understand

1

Motivation

what helps them start and persist

2

Focus

attention, distractions and concentration

3

Organisation

planning, deadlines and workload

4

Study Skills

revision, self-testing and consolidation

5

Personality

learning approach, strengths and preferences

How it works

1

Take the questionnaire

**2**

Get a personalised profile

**3**

Use the insights in class and at home

FOR STUDENTS

A mirror plus next steps

- ✓ How they learn best
- ✓ What supports their motivation
- ✓ Where focus may break down
- ✓ Which study strategies suit them

FOR TEACHERS AND SCHOOLS

Insight that is easy to act on

- ✓ Individual student profiles
- ✓ Useful cohort-level patterns
- ✓ Better targeted learning support
- ✓ Shared language for study skills
